PROJECTS

Availability Monitoring & Analytics Tool

- Built an end-to-end data pipeline to collect, clean, and transform availability data.
- Automated reporting workflows using Python, reducing manual effort and improving visibility.
- Designed Power BI dashboards to monitor trends and detect anomalies.

Tools: Python, SQL, Power BI

E-commerce Analytics End-to-End Project

- Built an end-to-end ETL pipeline to clean and transform e-commerce sales data using Python.
- Designed a MySQL data model with fact and dimension tables for analytics.
- Created an interactive Power BI dashboard to analyze revenue, profit, and sales trends.
- Tools: Python, SQL, MySQL, Power BI

SKILLS

Programming: Python, SQL

Databases: MySQL

Data Engineering: ETL Pipelines, Data Cleaning, Data Transformation

Visualization: Power BI, Tableau

Tools: Git, Excel, Google Sheets

Concepts: Data Warehousing, KPI Monitoring

WORK EXPERIENCE

Industrial Training (Codinova Technologies Pvt. Ltd.)

August 2025

Description: Worked as a Data Analyst Intern, focusing on data-driven insights for real-world projects. Contributed to data collection, cleaning, and transformation pipelines to enhance data usability. Performed exploratory data analysis (EDA) and visualization to support decision-making for the development and product teams. Collaborated cross-functionally to derive actionable insights that improved project efficiency and performance. Demonstrated adaptability and initiative in handling analytical challenges with precision and creativity.

Technologies Used:

Python, Pandas, NumPy, Matplotlib, Excel, SQL, Power BI

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University (AKTU)

2022-2026

B.Tech (Information Technology)

Seth Anandram Jaipuria School, Vasundhara, Ghaziabad

2020-2022

Senior Secondary (CBSE)

Secondary (CBSE)

CERTIFICATIONS

- Introduction to Generative AI Studio – Google Cloud/Simplilearn SkillUp
- Power BI for Beginners – Microsoft/Simplilearn SkillUp
- Business Analytics with Excel – Microsoft/Simplilearn SkillUp
- Data Analytics Job Simulation – Deloitte
- Introduction to Data Science – Infosys Springboard
- Machine Learning with Scikit-learn – Infosys Springboard
